

"All things come round to him who waits."
Oh, nonsense, rubbish, stuff!
All things come round to some one else
If we wait long enough.

Wayne Plymale shot and killed Greene Charles at Pikeville after Charles had ordered him from the house.

THE TIME TO PLANT TREES.

February is the month to plant trees, and people are now making their orders for fruit trees. If every man, woman and child in Mason County would plant one fruit tree each during next month, it would add to the health, wealth and happiness of the people and to the county's great fruit-growing industry, as well.

Little Arthur's mother, after trying in vain to get him to swallow a pill, concealed it in a banana, which she gave him. Presently when she asked him if he had eaten the banana he replied: "Yes, mamma, all but the seed."

A BEAUTIFUL HIGH-NOON WEDDING AT HOMER, ILL.

Mr. Claud Valentine Jinks, who visited Kentucky more than a year ago will be married to Miss Blanche Darr tomorrow, Thursday, February 5th.

After a dinner the bridal party will be autoed to Danville, Ill., to the home of E. N. Jinks, a business man of that city and brother of the groom, where they will board the midnight train for Kentucky to spend a while with relatives.

Then they will later return to Homer, Ill., where the groom has a home furnished just to suit his beautiful and accomplished bride.

Mr. Jinks is a nephew of Mrs. Mary Degman and Mrs. Lotta Corryell of this county. I. M.

Retired Georgia Planter's Advice to Kidney Sufferers

Regarding the wonderful curative merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys, I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one-dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter, 70 years of age, and owing to Dr. Kilmer's Swamp-Root, I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it.

Sincerely yours,
C. E. USSERY,
Bowersville, Ga.

Personally appeared before me, this 8th of September, 1909, C. E. USSERY, who subscribed the above statement and made oath that the same is true in substance and in fact.

T. M. MLANE,
Notary Public.

Letter to
Dr. Kilmer & Co.,
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Maysville Daily People Ledger. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

By the vote of 40 to 39 the bill looking to a constitutional amendment, whereby convicts may work the public roads, was defeated in the House, but later reconsidered and re-committed.

NEW BILL GIVES \$2,000,000 FOR OHIO RIVER IMPROVEMENT.

Washington.—The Ohio River will get its full appropriation of nearly \$2,000,000, recommended by the Board of Engineers, in the coming appropriation bills, it was learned today.

BRIEF SERMONS.

The thoughts put into sermons sometimes suggest the pay of the preacher. There are other vocations than fishing that make men and truth strangers. The faults of plain women are less frequently criticised than those of pretty women.

Some very wise women paint and powder, but not even the wise can improve upon nature.

A man who remains ill-tempered when the weather is fine and those about him are gracious needs a doctor.—Judge.

PUBLIC NURSING

Discussed at Lexington: Convention of Trained Nurses.—Noted Speakers Present.

(Tuesday's Lexington Herald.)
The reaching of the middle classes who are in need of professional nursing during periods of illness was the subject of an interesting talk Monday afternoon by Miss Ella Phillips Crandall, instructor in the Teachers' College of Columbia University, of New York, and Executive Secretary of the National Organization of Public Health Nursing. The meeting was held at 3 o'clock in the county courtroom. Miss Chlo Jackson, formerly of the Fayette County Tuberculosis Clinic, and now doing field work under the direction of the State Tuberculosis Commission, of Frankfort, presided.

The subject as discussed by Miss Crandall, who is one of the gifted women of the country, was heard by an audience not large in numbers but intensely appreciative. The speaker brought out many phases of the work, that any man or woman however much they might be interested in the uplift of humanity would be staggered by the force of her arguments as to how little they really knew. The speaker said in part:

"There are three methods of reaching those who are ill with nurses and nursing. First, the established hospitals, private nurses and the public health nurses. The former take care of the rich, who go to the hospitals and by private nursing if they desire to remain at home, because in either instance they are amply able to pay the price. The poor, those dependent upon charity, also get attention in the private wards at the expense of the city, county, charitable organizations and churches, while the great middle class, the bread-winners, the skilled laborers and others whose salaries are from \$10 to \$25 per week, must seek the Public Health Nurse.

"They are unable to go to the hospitals and pay the bill and must remain at home and here is where we are getting in our work by seeking out such homes, which largely outnumber that of the rich and the poor.

"The service of the Public Health Nurse and the School Nurse is a paid service, not a charity calling. It is skilled, competent and the interpreter and instructor of the home in sanitary and hygienic laws and customs. The pay of the Public Health Nurse is from 10 cents a trip, enough to pay her fare, up to a living salary, the latter usually \$100 a year.

The readers of this paper will be pleased to learn that the latest one-headed disease that has been able to cure in all instances, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for full particulars.

being paid by philanthropic means, city and county governments, and such organizations as are looking after the uplift of the great common people.

"It was not until the nineteenth century that the work first appealed to people in power, when in 1859 in Liverpool it was given official organization and standardization by Queen Victoria. In America the first step was inaugurated in 1877. From a small start the work had grown in 1901 to fifty-six associations, with 150 nurses while in 1913 it showed 1,350 associations and 4,000 nurses. The public health nurses are advancing the work of ferreting out curable and preventable diseases. They are advanced in the science of sanitation, and hygiene and when they enter the home, demonstrate and give instruction in the observance of such rules and regulations as are calculated to improve health conditions. The public school nurse—a branch of the work, simplifies the work of the transient officers, reaches directly the ill and troubles of child life and gets still closer to the basic principle of race perpetuation by looking after and caring for the infants.

"In England and other countries of the old world laws have been put into effect protecting working women for certain periods before and after childbirth for the benefits obtained both to mother and her offspring. These laws are the direct result of the world-wide campaign for public health.

Miss Crandall said 200 cities, 12 States and four counties in the United States were employing public health nurses and at living salaries. The competency of the public health nurse had never been questioned. They take a technical course and post graduate courses and when they enter the sick room, the badly kept home, the home with poor ventilation and poor sanitary arrangements they are competent to give the best advice and help. Miss Crandall, who was introduced to the audience by Dr. Ernest B. Bradley, spoke for more than an hour and held the attention of her hearers because every word and sentence contained a message to those who are well and in the enjoyment of good health. Miss Crandall left last night for an address at Louisville, after which she goes to Washington, D. C., and thence to Richmond, Va.

Miss Crandall has made an active Western campaign in the interest of the work and upon her arrival here was the guest for luncheon at the Phoenix hotel of the Public Health Nurses of Lexington and Central Kentucky and of the Fayette County Tuberculosis Association.

Among the visiting public health nurses who attended the meeting were Miss Emma Hunt, of Paris; Miss Anna Casey, of Maysville, and Miss Mary Williams, of Ashland. Mr. Roy French, of the State Tuberculosis Commission, came to Lexington to hear Miss Crandall.

Six contractors testified in the John Doe probe of highway graft in New York. The first man said he gave \$500 to the Democratic State Committee at the solicitation of Everett P. Fowler.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

The Greatest Modern Educator Of Children—Mme. Montessori

on her recent tour of America included Battle Creek, the great Pure Food Center, in her itinerary. Speaking of diet for children she makes the following statement (in the Chicago Daily Journal of Dec. 31, 1913):

"Coffee and tea should never be placed within reach of a childish hand."

Besides being an educator, Madame Montessori is a physician, and bases this advice on her scientific knowledge that an ordinary cup of coffee contains about 2½ grains of caffeine—a poisonous drug, (also found in tea).

In these days of liberal education the average American parent is becoming informed concerning the baneful effects of tea and coffee drinking, not only on the youth, but on those further along in life.

How much better to place before the children (and older ones too) a wholesome, nutritious, pure food drink such as

POSTUM

Made only of prime whole wheat and a small percent of pure molasses, Postum contains only the rich native value of the grain—good for young and old. Postum is free from caffeine or other harmful substance.

Postum comes in two forms:

REGULAR POSTUM—must be well boiled to bring out its rich flavor and food value. 15c and 25c packages.

INSTANT POSTUM—a soluble powder. A teaspoonful stirred in a cup of hot water—with cream and sugar—makes a delightful beverage INSTANTLY. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for POSTUM

—sold by Grocers everywhere.
